Data Back-up: I understand that during the repair process it will be necessary to reset the handsets memory, which will result in the loss of data including messages, photographs, information and content.

I acknowledge that it is my responsibility to remove any personal, messages, information or content (including games, ringtones, pictures, videos, apps etc.) and to ensure that any such data is backed up before the handset is submitted for possible repair.

Please ensure that you complete the relevant sections on Page 2>>>

For iPhone users: As you will be aware, Apple have introduced new software for the iPhone, IOS7 onwards. A feature of this new software is the option to set the device to "Find my iPhone" so if the device is lost, it can be traced. If "Find my iPhone" is activated on a device when it is sent for repair then a repair cannot be processed due to Apple security measures set into the iPhone. Failure to deactivate this option from this phone will result in delays in processing an iPhone repair.

I confirm I have turned off "Find My iPhone" on my iPhone
