For this charge you receive the (A) daily data allowance after which an additional per MB usage rate of 6c per MB inc VAT applies and (B) unlimited calls back to Ireland from any zone country within your zone and calls made within the relevant zone country (but excluding certain call types set out below at paragraph 13) and unlimited calls received in the zone country. Calls to voicemail are also included.
8. We will notify you when we see that data usage has reached 80% of your daily 1GB data allowance and when you have reached the full daily 1GB data allowance. This notification may be received when you have passed the allowance. We will use reasonable efforts to deliver notifications in a timely manner however the notifications are approximate indications of your usage and spend and due to processing times of recent account activity some usage may be excluded at time of notification. Any additional data used beyond the Pass daily data 1GB allowance will be charged at the relevant rate for the country in which you are roaming of 6c per MB
9. Where you have selected one or both of the Passes, there is no subscription charge for the Pass and the daily charge is only applied when you initiate a data session while roaming in a zone country in either of the Passes set out in the table above.
10. The Pass daily data allowance can be used between 00.00hrs and 23.59 hrs (Irish time). Whilst travelling it is recommended that you check the time in Ireland. Unused data allowances cannot be carried over to the next day.
11. If your data usage/session continues after midnight, the Pass will be triggered for the following day. To avoid additional charges, Three recommends you complete your data session before midnight (Irish time).
12. There is no carryover of Pass unused data or voice allowances.
13. Only calls and texts to standard mobiles and standard landlines are included. Local calls made within the relevant Pass zone country you are roaming in are also included. However all premium rate, directory enquiries and non-geographic numbers other than calls to 0818 and 076 are excluded as are international calls other than calls back to Ireland.
14. You are responsible for the management of your mobile device configurations and should be aware that updates and connections can incur data usage. You are wholly responsible for any associated costs while roaming. Where your mobile device is setup for automatic data updates, connections on your mobile device are considered to be with your consent and so data roaming charges will apply. To avoid unexpected data usage while roaming due to automatic updates and connections it is recommended that these be disabled whilst travelling and manual connections be made when needed. Please refer to device manual or application settings for detailed instructions.

15. Three reserves the right to limit your usage of a Pass and its constituent elements where Three deems that your usage of the Pass services is for commercial purposes or is excessive.
