Monthly Charge increase

Subject to annual price increase of CPI +3% in April each year

The CPI rate will be based on Central Statistics Office (CSO) published annual Consumer Price Index (CPI) rate reflecting the index movement over the prior 12 months, published in January of each year. Minimum increase 3%.

+ where the first bill of the Minimum Term falls in March, the monthly charge from April Y1 bill until March Y2 bill will not change but will increase the following year by CPI + 3%

Example (CPI % for illustration purposes in the table below only and the actual monthly charge payable will be subject to the published CPI rate plus 3% referred to above)

Y1 CPI = 5% therefore increase = 8%
