2. Boosters are valid for 28 days (“Booster Period”) and are either recurring or one-off. If “28 Day” is included in the Booster name, the Booster is once-off. Booster names without “28 Day” in the Booster name are recurring.

#### **Recurring Boosters**

3. Customers cannot purchase more than one of each type of recurring Booster during a Booster Period.

4. You must have sufficient credit on your account for recurring Boosters to reactivate at the end of a Booster Period. If the balance is not available, the system will try again within 24 hours. If this second attempt to apply the Booster fails, the Booster will not be activated for that 28-day period. It will re-activate again 28 days later, if there is available credit at that time.

#### **Once-off Boosters**
